ABOUT GLAD RAGS

The title “Glad Rags” refers to the 1920s slang for your swankiest outfit, your going out clothes - but it also expresses the **positive impact** of giving old clothes new life.

Glad Rags is being produced as a series of short episodes released on the web as a multi-part documentary.

Vintage clothing is unique - it's green! Part of what makes vintage clothing special is that one-of-a-kind vintage pieces are not only fashionable, they are environmentally friendly. It's our job to help prevent unique and valuable textiles from making their home in landfills instead of in our closets!
